General Department,
Bangalore

SECRETARIAT GENL 3 ROOM 25

SIR

I have the honour to state that in connection with the manufacture of compost manure which was undertaken by this Municipality in the beginning of July 1931, a represen ative of the Agricultural Department on a pay of Rs 150 a month was in cnarge of compost operations from 16-10-1931 to end of June 1932, as sanctioned in Government Order No L 2175-7/L1 12-31-47 dated 21/24-9-1931 and No L 7665-4/L1 12-31-105 dated 16/19-5-1932 On the expiry of the term of the Agricultural Inspector, the preparation of compost was being supervised by one of the Sanitary Inspectors of the Municipality

The approximate quantity of compost manufactured having come to nearly 300 tons a month, it was proposed to entrust its sale to an agent, and the Council in their Resolution No 396 dated 26th March 1932 accepted the tender of one Mr K Basappa for the sole agency for the sale of compost Out of a total quantity of 1153¼ tons sold up to 20-1-1933, 888 tons were purchased by the Agricultural Department, 237 tons by private individuals, and 28¼ tons directly through the sole agent According to the agreement, the contractor had to get 7½% commission on sales to the Agricultural Department and other Government Departments It was seen that the Agricultural Department was practically the largest purchaser of the compost and the

[illegible] put himself in communication with the Director with a view

to secure better results in the manufacture and sale of compost and to see if the business could not be carried on without the services of an agent The Director replied in his letter No Roc 1054/32-33 dated 17-12-1932 that it is quite necessary to have a representative of his Department to supervise the manufacture of compost and keep all scientific records connected with it He also stated in his letter No Roc 2340-Hc 476 dated 15-2-1933 that his total requirements would be for at least 3,000 tons per year that the quantity over and above this can be disposed of to the ryots of the Irwin Canal area, and that there need be no anxiety about the disposal of the compost

The agent for the sale of compost was not in favour of the appointment of a representative of the Agricultural Department as suggested by the Director, during his agency and desired to have the agency continued under the existing conditions only But, considering the volume of business transacted with the Agricultural Department and the necessity and importance of securing technical advice in the manufacture of compost, the agent was induced and by mutual agreement he accepted to have his agency terminated The Municipal Council, considering all aspec s of the case resolved in their meeting dated 25th March 1933 that his agency be terminate and that the services of an officer of the Agricultural Department be entertained for the supervision of the manufacture and sale of compost, as proposed by the Director of Agriculture (Vide copy of Resolution enclosed) The Director of Agriculture was accordin requested to depute a suitable hand and he has sent one Mr S Ramasw Sastry on a pay of Rs100 a month The latter reported himself for duty in this office on 3rd April 1933

The above arrangement is quite essential in view of the importance of compost making I request, therefore, that you may be so good as to obtain the sanction of Government to the said resolution of the Council to appoint an officer of the Agriculture Department for the supervision of the compost operations and its sal

in 1933 The pay of the present Agricultral Inspector

is only Rs 1.0 per month or ⅓rd of the pay sanctioned -- previously to the Agricultural Inspector temporarily engaged The cost of this appointment will be met from "Misc compost" of the current year's budget

Favour of early sanction is requested

I have the honour to be,

Sir

Your most obedient servant,

President

D O No Roc 2340 Hc 476 dated 15th February 1933 from the Director, Agricultural Department, Bangalore, to the President, City Municipal Council, Mysore

---

With reference to your D O letter No 1297 of the 11th instant just received, I can assure you that we shall require the whole of your 2000 tons of compost What I meant was that we should be able to move the 1000 tons just as rapidly as we coul get transport for it Our total requirements will be for at least 3000 tons and as we shall be able to dispose of any supply over and above this to ryots of the area I think you need have no anxiety about the disposal of the compost

I am proceeding to Mysore tomorrow and shall probably see you about this matter
